Full-wrap frontal collision test (Driver's seat)

Level 5 /5

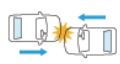

Full-wrap frontal collision test (Passenger's seat)

Level 4 /5

Offset frontal collision test (Driver's seat)

Level 5 /5

Offset frontal collision test (Front passenger's seat)

Level 5 /5

Side collision test (Passenger's seat)

Level 5 /5

Pedestrian head protection performance test

Level 5 /5

Detailed results (PDF)

Model/Brand	Assesment	NASVA
Type	Passenger Car	
Overall evaluation	Driver's seat	★★★★★ 6 (FY 2006)
	Front passenger's seat	★★★★★ 6 (FY 2006)

The number of stars (out of possible six stars) is determined based on points for full frontal collision tests, offset frontal collision tests, and side collision tests. More stars indicate fewer injuries to drivers and passengers.

Test results are rated according to five levels. Higher levels indicate better passenger protection performance.

Test results are rated according to five levels. Higher levels indicate better pedestrian head protection performance.
