

Understanding of evaluation results

2023

Shows the models that received the highest evaluation (★★★★★) in the overall evaluation in 2023.

To earn ★★★★★, the model is required to have the highest evaluation (A rank) of Collision safety performance and Preventive safety performance, and to be equipped with an Automatic accident emergency call system.

Indicates that the model meets evaluation criteria for Electric shock prevention.

Indicates that the vehicle is equipped with the Support Device to Prevent leaving child in the car.

Based on the total score of the Preventive safety performance evaluation, it is expressed in five ranks from the higher A rank to the E rank. The percentage represents the percentage of the score in Preventive safety performance. The perfect score is 89 points.

Model/Brand	Model Name	Brand Name
Type	Passenger Car	
Overall evaluation	★★★★★ (FY 2023) 93% (184.44 / 197 points)	
Movie	Movie	

Preventive safety performance	Collision safety performance
A Rank 100% (89.00 points / 89 points)	A Rank 87% (87.44 points / 100 points)

Precautions regarding preventive safety technologies in vehicles (Japanese only)	
Autonomous emergency braking system [car to car] test Level 5 / 5	Full-wrap frontal collision test (Driver's seat) Level 4 / 5
Autonomous emergency braking system [for Pedestrian at daytime] test Level 5 / 5	Full-wrap frontal collision test (Passenger's seat) Level 5 / 5
Autonomous emergency braking system [for Pedestrian at night] test Level 5 / 5	Offset frontal collision test (Driver's seat) Level 5 / 5
Autonomous emergency braking system [for bicyclist] test Level 5 / 5	Offset frontal collision test (Rear passenger's seat) Level 5 / 5
Lane departure prevention system test Level 5 / 5	Side collision test (Driver's seat) Level 5 / 5
High-performance headlights test Level 5 / 5	Neck injury protection rear-end collision performance test (Driver's seat) Level 5 / 5
Pedal misapplication prevention test Level 5 / 5	Neck injury protection rear-end collision performance test (Passenger's seat) Level 5 / 5
From "Vehicle Safety Performance 2023," an evaluation corresponding to accidents with pedestrians has been newly introduced in the evaluation of the "Acceleration Pedal Misapplication Prevention System". Due to the changes in the evaluation content, the distribution of points has been changed. Therefore, it is not possible to make direct comparisons of safety performances based on their scores with the vehicle models evaluated in the past.	Pedestrian head protection performance test Level 5 / 5
	Pedestrian leg protection performance test Level 5 / 5
	Passenger seat belt reminder (PSBR) test Level 4 / 5
	Front passenger's seat [O] Rear passenger's seat [O]
Automatic accident emergency call system Advanced type 100% (8 / 8 points)	
Detailed results (PDF)	

The larger the number of ★, the higher the overall safety performance.

There are five levels from ★★★★★ to ★.

Percentage represents the percentage of the score in over all score where the scores of each evaluation of Collision safety performance, Preventive safety performance and Automatic accident emergency call system are totaled. The perfect score is 197 points.

Based on the total score of the Collision safety performance evaluation, it is expressed in 5 ranks from the higher A rank to the E rank. The percentage represents the percentage of the score in Collision safety performance. The perfect score is 100 points.

Test results are rated according to five levels. Higher levels indicate better performance.

Availability of PSBR in the front passenger seat and rear seats is shown.

It displays the presence or absence of a system that automatically reports the occurrence of an accident. The percentage represents the percentage of the score.

Precautions regarding preventive safety technologies in vehicles. Please check carefully the instruction manual, drive safely without depending on the system.

Detailed test results for each evaluation item.
